

# PONGSIRI PHADUNGKHANT (BOSS)

Full Stack Developer

Email : [work@bosspongsiri.com](mailto:work@bosspongsiri.com)

## EDUCATION BACKGROUND

2017 - 2020

### Bachelor's Degree

Suranaree University of Technology  
School of Computer Engineering

2014 - 2016

### High School Diploma

Santiratwitthayalai School  
Sciences - Mathematics Program

## SKILL

**Framework** : Nuxt.js, Vue.js, Node.js, Express.js, Codeignitor, Zend Framework, Laravel

**Containerization** : Docker, Docker Compose

**Cloud** : Amazon Web Services (AWS)

**AI & Productivity Tools** : Kiro AWS

**Database** : MySQL, MariaDB, Elasticsearch

**Platform** : Linux (Debian), Windows, MacOS

**GIT** : Bitbucket, Gitlab, Github

## OTHER

**TOEIC Certificate** - March 4, 2026  
Total 685, Listening 370, Reading 315  
Center for Professional Assessment (Thailand)

## WORK EXPERIENCE

**PACKWORKS CO., LTD.** - Full Stack Developer

JULY 2024 - PRESENT

### Tech Stack:

- Nuxt.js, Vue.js, Node.js, Express.js, Zend (PHP), MySQL
- Docker, AWS (S3, Aurora&RDS, Kiro, EC2, ECS, EB), Figma, Agile
- Print Master Online Approval System
  - Developed an online Print Master inspection system by designing required database tables and modifying existing schemas. Stored versioned design data and uploaded images on S3, generated Print Master PDFs using EJS Templates, displayed PDFs with PDF.js (Mozilla), and created a consent modal for PDPA-compliant digital signature collection.
- Product Unit Management & Adjustments
  - Updated plastic bag units from cases to sacks and bundles, added minimum order quantities, and adjusted inventory counts, stock in/out transactions, QT Orders, and related processes to align with the new units and minimum order rules.
- Franchise Order-on-Behalf System
  - Managed company e-commerce session states to allow switching from the main franchise account to a customer account to place orders on behalf of the customer.
- AI Implementation (AWS Kiro)
  - Applied AI Multi-Persona Orchestration to projects to reduce development time and optimize engineering resources.
  - Developed a bulk product editing system supporting unit updates, saleable units, update scheduling, Excel import/export, and data syncing to 3rd-party platforms.
- Promotion Code System Enhancements
  - Migrated the promotion code system from the legacy platform to the new system and developed additional features.
  - Built a promo code collection feature on the company's e-commerce platform and updated checkout purchasing conditions.
- Monitored logs and resolved issues during website downtime.
- Migrated features from the legacy admin version to the new admin version.
- Mentored junior developers and interns.

**SHADOL CO., LTD.** - Full Stack Developer

OCTOBER 2021 - APRIL 2024
